

-----Introduce yourself-----

My name is Dung, my full name is Bui Xuan Dung. I was born and grew up in a family with five people: my parents, my little sister, my elder sister and me. I can say that I am a friendly person, easy to make friends and I am always looking for new things in my life. I don't like reading books because it is very boring and I am not a type of person who like sports but sometime, I play badminton with my friends. In my free time, I usually play computer games because it is very interesting and it also helps me to relax after a working day. I am now a freshman at Hanoi University of Industry. I feel very happy to study here because it not only helps me gain knowledge but it also helps me make many friends. My dream is to become a programmer because I love working with computers. In the future i hope i will find a good job and make many friends.

-----Family-----

Every person born and raised needs to be nurtured and surrounded by family to develop comprehensively in all aspects of daily life. My family is a wonderful part of my life. There are 5 people in my family including my father, my mother, my younger sister, my elder sister and me. My father is 47 years old and he is a driver, his working hours are not fixed and he often has to drive through the night due to the nature of his job. My mother is a worker and she works for 8 hours every day. Even though she has to work, my mother always fulfills her responsibilities as a woman in the family. My 10-year-old sister is studying at a primary school near my house, her name is Hai Anh. And my elder sister is Phuong Anh, she is a 3rd year student at a university in Hanoi. I love my family, but the person I love the most is my mother. Besides being a responsible housewife, she is also a wonderful mother. She always gives love to her family and she always teaches me the right things. I am grateful to my mother for her support throughout my life, even though she was not able to assist me with my studies.

-----Daily activities-----

Hello my name is Dung. Now I am a freshman at Hanoi University of Technology. My day begins at 6: 30. After brushing my teeth, washing my face, I eat breakfast in the canteen. Because I don't have class in the morning, I usually study by myself and do my homework online on my laptop. I have lunch at 11 o'clock. In the afternoon , I attend my class and study from 13:10 to 16:10. After studying in the class, I come home and have a shower. I usually have dinner at 6:00. In the evening, I do my homework and sometimes I play computer games. I go to bed at 10:30. And that's all about my daily activities.

-----Free time activities-----

In my free time, I mostly play computer games. Action games and racing games are the types of games I like to play. Besides playing games, I also often listen to music or watch youtube. I also quite like watching movies, especially action movies. Sometimes, I like to go out with my friends or with my family. In terms of sports, I don't like football but I quite like playing badminton. I often play badminton at school or with my father and my younger sister. I'm not the type to sit still for too long unless I'm playing games so I rarely read books. Even so, I know that reading is essential and I need to pay more attention in reading.

-----Job-----

My ideal job is a programmer. I like being a programmer because it suits me quite well, on the other hand I also quite enjoy creating software and working with computers. The other reason when I chose this job is because of the advice from family, friends and society. I just want to work in a company near my house because I don't want to have to go to work too far. I want to work at a big company with a salary of about 2000 USD per month. I hope I will have more work experience and good colleagues. That is also one of my big goals in the future!

-----Food and drink-----

I'm not a gourmet but I quite like fast food. Hamburgers are my favorite fast food because it is very delicious. Even though I like fast food, I don't usually eat it because it's not healthy. I just eat fast foods at weekends or sometimes I eat them for breakfast. I also drink coke and C2. But besides fast foods, I do like fruits. My favorite fruits are apples, peaches, grapes and mangoes. I like fruits because they are very healthy and delicious too. Sometimes, I go to a small restaurant near my house with my family or with my friends. My mother usually buys fruits so I just eat fruits at home.

-----Sports-----

My favourite sport is badminton. Badminton is a sport originating from India, this is a very famous and widely known sport around the world. To play badminton, you need to prepare badminton racket and shuttlecock. The player scores by hitting the shuttlecock over the net and the shuttlecock lands on the opponent's field. Badminton can be played in outdoor sports courts with nets or in sports halls but I usually play badminton with my friends in the school yard or in a large sports field. I play sports because it not only helps me relieve stress, train my physical health but also helps me make many friends. I very love badminton so I usually play badminton every afternoon and sometime I play badminton in the morning on Sundays.

-----Holiday-----

My last holiday was a 3 day trip to HaLong bay. I went with my family about 1 month ago. We traveled by plane and we had to get to the airport at 5am to catch our flight. When I arrived in Ha Long Bay, I felt very excited. After took a short break, I participated in many interesting activities such as boating, swimming and especially exploring the massive stalactite caves. I also visited fishing villages on HaLong Bay and enjoyed delicious food. I felt very happy and excited about my trip and I hoped I could I come back here again.
